For more information, please visit our website: . NandaNocNic 4.1.2017 APK Care App: This is a complete and updated version to the latest edition of NANDA-I. Contains all diagnostics 2015-2017 (NANDA-I). Results (NOC 5th edition) and intervention (NIC 6th edition), as well as its relationship, now called Links (3dition). Navigation between NANDA/NOC, NANDA/NIC, NOC/NIC, NIC/NANDA, NIC/NIC and NOC/NIC with 11 medical diagnoses. Options: NANDA-By Nanda-I Domains- W. Henderson Needs.- By M. Gordon Patterns. like inResults and intervention, adding them to favorite menus where they can be accessed quickly and conveniently. These navigations were derived from existing features in NIC books with NANDA, NOC with NANDA links. This phenomenon does not occur with new DDEs or with the new NICs included in the 6th edition. We have decided not to lose this information in our databases because it expands search capabilities. The risk in your NANDA navigation with NIC, since interventions are consideredprinciples, offered and optional, are based on NIC's relationship with NANDA 6th edition of NIC. For this reason, some of them may appear to be duplicated when comparing related risk factors in the 3rd edition of links. This phenomenon does not occur with new DDEs or with the new NICs included in the 6th edition. We have decided not to lose this information in our databases as it expands search capabilities. What's new in the new book NANDA-I (2015-2017) a total of 26 new diagnostics have been included in this edition, ranging from code 231 to code 251 and 253 to 257, inclusive. Codes from 189 to 192 inclusive and 252, No diagnoses are awarded, on the other hand, 7 Diagnostics have been eliminated, the codes of which are: 1, 3, 50, 101, 111, 127 and 186. What is new in the book of references contains noC and NIC references to medical diagnoses, such as the newness in actual diagnosis, NIC Interventions related to relatedFactors, are presented as a list in orderfab'tico. They are not related to specific collateral factors in the risk diagnosis of the new linkss book, the authors do not associate the results of the NOC or NIC intervention with each risk factor, they are displayed only as listsfacesNotes in the book NIC As a notable novelty in this 6th edition of NIC is theirimperfection of their relationship with NANDA. This information disappeared from the previous edition of Noesses in the book NOC-It should be noted as a novelty in the 5th edition of the NOC theinsumation classification of patrons of Dr.. Marjorie Gordon© NANDA-I, authors of Diagnostic Nurses© John Wylie and Sons, Inc© under license, editing by ELSEVIER, Spanish translations© Edulcsa Tics, S.C.P., using this computer app App for NursingProfessionals: This is a complete version and updated to the latest edition of NANDA-I. Contains all 2015-2017 Diagnoses (NANDA-I), Results (NOC 5thdition) and Intervention (NIC 6 edition) and theirinterterization, now called Links (3rd Edition). : By code Clarifications: For Nanda Nanda-I. Domains-What V. Henderson Needs.- By Gordon M. Patterns. NOC NOC for Domains.- Gordon M. Patterns. Favorites or Not.Navigation between NANDA/NOC, NANDA/NIC, NOC/NIC, NIC/NANDA, NIC/NIC. These journeys were derived from therelationships in NIC books with NANDA, NOC with NANDA andLinks. In NANDA NIC navigation, some of the activities derived from the NIC 6th edition, related to actual diagnoses of consideredmajor, offered and optional, may be duplicated in relation to related factors related to references obtained from the book in its 3rd edition. This phenomenon does not occur with either the new or the new NIC included in the 6th edition. We have decided not to lose this information in our database, which expands search capabilities. For this reason, they may seem to duplicate some of them to match The Associated Risk Factors of the 3rd edition of the link. Thisphenomenon comes with neither nor with the new DOE of the new NICincorporated in the 6th edition. We decided not to lose this information in our database, which expands the possibilities of research. Events in the new book NANDA-I (2015-2017) This edition included a total of 26 newly diagnosed codes ranging from 231 to 251 and 253 to 257, inclusive. Codes from 189 to 192 inclusive and 252, No diagnoses are awarded, on the other hand, 7 Diagnostics have been eliminated, the codes of which are: 1, 3, 50, 101, 111, 127 and 186. Developments in the Link book contains references to NOC and NIC Medical Diagnostics as the new In real diagnosis, associated NIC Interventions relatedfactors are presented as a list in alphabetical order. They are not related to specific collateral factors Risk Diagnostic Links new book, the authors do not link the results of the NOC or NIC intervention with each risk factor, only they appear as alphabetical listsWhat is new in the book NIH As a remarkable novelty in this 6th edition of NICincorporation returned to its relationship with NANDA. This information was absent from the previous edition of Development in the book NOX Notably new in the 5th edition of the NOC inclusion ratingDr. Templates. Marjorie Gordon© NANDA-I Nursing Diagnosis Authors© John Wylie and Sons, Inc., is licensed© Elsevier, for Spanish translations© Edulcsa Tics, S.C.P. for this software app Ear Agent: Super Hearing APK Ear Agent tries to improve hearing with Android. Depending on how good your phone is, it can become a powerful listening device (such as hearingaid). NOTE: This is not a surveillance device. It increases your hearing. This app was formerly called Ear Agent, but is not spydevice. Click on the central button and you can hear the world around you. Use it to observe your surroundings and control what's going on. If you want to listen to nature, have a conversation, or just listen to TV Ear Agent aims to give you super hearing and improve what you hear. There's more going on around you than you think. It's time to hear it. HEADPHONES ARE REQUIRED. Refusing to use headphones will result in auflaudio feedback. You've been warned! NOTE ON OVERVIEW: Please review the app if you try it. But I know you hate leaving reviews... because I hate to leave reviews. So if you can think of nothing to say... just leave a review saying Rad if you love it or Bogus if you hate it. Or just say Eh if you don't have an opinion. However, I love the full and honest reviews asthey really help us... But it's all good. Five stars will beawesome. Now back to what the app does... The Ear Agent amplifies the sound coming through the phone microphonestraight to the headphones. To debug the incoming signal, use a graphic audio equalizer to adjust tactically to the environment. Perfect for the inquisitive person inside you who wants to hear newthings. But also ideal for those who have difficulty hearing or suffer hearing loss (many people use it as a hearing aid). It's not just used to listen to what others are saying. Upgrade to the professional version for some great additional benefits:-Advanced graphic equalizer (more than 5 bands if your phonepermits it)-Echo Cancellation (AEC)--Noise Suppression (NS)-Virtualization (Android 4.1 and Above)-Automatic Gain Control (AGC)-Bass-Boost (Bass)-MP3-HOME Screen-Ad-Ad-Free to learn how to use Ear Agent, here is a tutorial on YouTube: are you a blogger? We would like you to tell your readers about ouraps. You can upload images and resources at contact us atinfo@overpass.co.uk any other information you may need. Worried about safety? Ear Agent is perfectly safe to use. Butmake sure that you will receive the official version from Google Play (rather than afile sharing site): Notice We do not collect or store any information about users of this app. Once you download it, it works on your phone and never links to our servers. We use Firebase Analytics, which allows us to have anonymous data, but we don't have access to private information. If you're wondering how we make money, it's from ads and rooftops only. We don't collect any information about you. We're also developed apps for customers (on www.overpass.co.uk). We have created a video explaining how safe the ear agent is on Youtubehere: We do not condone the use of ear agent to break laws or invade talk. Please use Ear Agent responsibly. Check what is legal in your country before you use it. The Ear Agent is not a wiretap and cannot be used to tap anyone's phone. This does not violate the privacy of someone else's phone. It's just good for you. Better. VIDAL Mobile APK - 21/01/14, VIDAL Mobile won the award for best use the cross-cutting tools category for healthcare professionals.
